

SCREEN READERS

Read screen text aloud

ANYBODY CAN USE IT; IT HELPS WITH REMEMBERING THE COURSE CONTENT

The PD Glades Learning Portal is web-based. Therefore it does not provide its own screen reader. For that, you need to use the screen reader that your browser provides.

- For screen reader access in Microsoft Edge, use Control+Shift+U
- In Google Chrome, navigate to Settings | Accessibility | Add accessibility features and install a reader
- In Apple Safari, press Option+Tab
- In Opera, visit the Opera Add-Ons Web Store: Go to the Opera Add-Ons web store by typing "opera://addons" into your browser's address bar. Search for "Read Aloud": In the search bar at the top left corner of the page, type "Read Aloud" and press Enter.
